In view of applicants' response filed on 1/27/10 the following still applies.

Claims 1-3,5, 14 and 21 remain rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for the scope embraced by claim 4, does not reasonably provide enablement for remaining generic scope for reasons given previously.

Applicants' amendments to the claims are not seen to overcome the rejection and applicants do not otherwise point out how their amendments overcome the rejection.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1-5,14 and new claim 21 directed to COPD are rejected under 35 U.S.C. 102(e) as being anticipated by Gielen (WO'410) for reasons of record. The commonly assigned publication in addition to describing species within the instant scope, notably egs. 34 and 99 as stated previously, also describes the instant use as can be seen in the discussion beginning on p.31.

The only comment made regarding this rejection and presumably the obviousness double patenting rejection is that "R6 is not pyrrolidinocarbonyl". This is not correct. Note the R6 choice on p.4, top line, 2nd choice in the current set of claims. Additionally example 99 reads on instant choice R6 when monoalkylaminocarbonyl can be substituted by a phenoxy group.

Claims 1-5,14 and new 21 are rejected on the ground of nonstatutory

obviousness-type double patenting as being unpatentable over claims 1-3,5-10,12-17 of U.S. Patent No. 7,230,017. Although the conflicting claims are not identical, they are not patentably distinct from each other because they embrace overlapping subject matter as pointed out previously and discussed above for R6 as pyrrolidinocarbonyl.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
